

Yours
for
Life.

GEM S
Business Made Easy

Health. Dental. And disability.

Through **GEMSweb**, the new web service by Canada Life™, you and your employees gain easy access to benefits information.

Now your employees can click their way to their information! They register for **GEMSweb** online and then view their booklets, track the status of a health, dental or disability claim, look at their health spending account balance and much more.

Canada Life is one of the first group insurers to offer direct access to information for plan members, a benefit that can provide **you and your employees** more **time**, more **knowledge** and extra **value**.

To find out how you and your employees can take advantage of **GEMSweb** visit our website at www.canadalife.ca/gemsweb
