

Elder Care

We are pleased to introduce the Carepath Elder Care Program as a valuable addition to your benefits plan.

Carepath's Elder Care Program is the only program in Canada that connects you and your immediate family to a Nurse Case Manager who is here to help you understand your elder care choices. This ensures you get the right care every time.

HOW WE HELP

An initial consultation/assessment with you and your aging loved one

Development of a customized plan of care

Regularly scheduled virtual visits

Assistance in finding local community resources, service providers, specialists and alternate care providers

Assistance navigating sources of funding - government benefits, insurance or private care

Providing information and community resources to ensure the safety and independence for your aging loved one at home

Preparation for any upcoming doctor's and/or other medical appointments, including procedures

Coaching through life changing moments, such as moving into a retirement home, long-term care facility and/or the loss of a spouse

Assistance in finding the right senior living facility when staying at home is no longer safe (retirement, long-term care and/or respite facilities)

Call us. We're here to help.
